Title to, and Retention of, Student work

It is important that you understand the relationship between you, your work and IADT’s intellectual property rights. As a student of IADT, you assign to IADT all of the intellectual property rights in work you have produced for the purposes of assessment. You must also undertake to execute such documentation as we may from time to time require in order to perfect the right to title of IADT to all work you have produced for the purposes of assessment.

IADT may therefore retain pieces of work if it considers this to be appropriate and particularly if it is thought that such work will enhance and promote IADT’s reputation. It is consequently a policy to retain pieces of work from all graduating students as appropriate, this is done in consultation with the students concerned.

IADT reserves the right to display, exhibit, publish or otherwise use such student work. IADT will therefore be crediting or attributing the creation or co-creation of this work to the student by name.

Parents, guardians and other relatives

It is your responsibility as a student to communicate and engage with the Institute. If you are 18 years of age or older IADT will not normally disclose your data to parents or relatives without your consent, other than in exceptional circumstances i.e. where there is potential danger to the health or well-being of a student. We may agree to discuss matters relating to you with a parent/relative, but only if you consent to this. Exceptionally, where urgent communication with a student through direct contact details is not possible or has, following repeated attempts, been unsuccessful, contact may be via a student’s parents and/or next of kin using contact details provided by the student.

Students who are under 18 years old

Whilst IADT owes a duty of care to all of its students, it has a particular responsibility to safeguard 'the welfare of any individual under the age of 18 who, under Irish law is determined as being a child'.

The Registrar will write directly to the parents/guardians of any students who are under 18 years old when they enter IADT and will explain the policies and procedures which are in place here. Generally, IADT intends to treat under 18 year old students the same as the remainder of the student population.

It is your responsibility as a student to communicate and engage with the Institute. IADT will not normally disclose your data to parents or relatives without your consent, other than in exceptional circumstances i.e. where there is potential danger to the health or well-being of a student. We may agree to discuss matters relating to you with a parent/relative, but only if you consent to this. Publications

All graduating students, including those graduating in absentia, will have their name and award title (i.e. BA Hons.) listed in the graduation booklet.

Photographing and filming on campus/at IADT events.

Many IADT events are photographed or recorded and images are sometimes published on the IADT website and/or promotional documentation. IADT undertakes to make it clear when photographs/recordings are being taken at such events (i.e. location warning notices) and students will have the opportunity to remove themselves from the area if they wish so as not to have their image captured or used for this purpose.

Images captured and processed on the basis of Consent

An individual captured in an image can withdraw their consent even after having signed the consent form. Any such withdrawal should be in writing. Once consent is withdrawn, IADT cannot use the relevant image(s) again from that date, but it will not be possible to recall documents in which their image has already appeared.

Website Privacy and Cookie Policy

IADT's website privacy and cookies policy explains how data may be gathered about users of the Institute's website. Link here: <http://www.iadt.ie/privacy>

How IADT will contact you

Data retention

We will hold some of your data indefinitely in support of your lifelong relationship with the Institute, or until you ask us to do otherwise. If you exercise your right to erasure, we will retain a core set of personal data which will include name, subject(s) studied, Award and GPA achieved, graduation details, date of birth and unique identification number for verification, transcript and archive purposes. Some of our student support services such as Disability, Access, Health Centre, Counselling and Learning Support will retain records for a period of 7 years after last contact in line with professional codes of practice and guidance. We also need to retain some financial records such as fees paid and grants or scholarships awarded for auditing and statutory purposes.

The Athena SWAN Charter

The Athena SWAN Charter is an accreditation framework that is used across the globe to support and transform gender equality in higher education (HE) and research. The charter seeks to encourage and recognise a commitment to advancing the careers of women in science, technology, engineering, maths and medicine (STEMM) and Arts, Humanities, Social Science, Business and Law (AHSSBL). It was recently expanded to address gender equality more broadly throughout Higher Education Institutions, not just barriers to progression that affect women and not solely academics, in addition to disability, ethnicity, and supports for transgender and non-binary staff and students.

In accordance with the provisions of the HEA requirement for Higher Education Institutions to engage with the Athena SWAN process, we collect and utilise personal data in an aggregated, anonymised and statistical form for inclusion in our applications and EDI reports. The legal basis for the collection and processing of this data is for the legitimate interests of IADT.

Under the terms of the Data Sharing Agreement with Advance HE, they will keep a record of the data for up to 8 years, after which period the personal data may be further anonymized and aggregated to enable Advance HE to use the IADT data as part of ongoing impact evaluation and sector research.
